**10:25 - 10:30:** Short break and set-up for 1st workshop.

### **Workshop 1:**

Hosted by Dr Kyriaki (Dean and Associate Professor), Renée Marx (Learning Technologist) from Bath Spa University (UK) and Kelly Shiohira (Technical Specialist) from Jet Education Services (South Africa).

They will lead an intensive workshop on using AI for Teacher Training and the need to develop/enhance existing teaching pedagogy and didactic frameworks for AI.

**10:30 to 11:15** Core Presentation/demonstration.

**11:15 to 11:45** Break-out session and/or fireside chat activities.

**11:45 to 12:00** Wrap-up and conclusions from workshop 1.

### **Workshop 2:**

Hosted by Peter J Wells - Chief, Section for Higher Education - UNESCO

Workshop on 'Future of Higher Education to lead transformation of digital diversity' and will this have the capacity to deliver 'inspirational education for all'?

What is needed to ensure digital diversity and access to pertinent digital contents globally and thereby avoid creating a new apartheid in global higher education?

What will be the role of teachers and teaching in the 21st Century?

**12:00 to 12:45** Core Presentation/demonstration.

**12:45 to 13:15** Breakout session and/or fireside chat activities.

**13:15 to 13:30** Wrap-up and conclusions from workshop 2.

### **13:30 to 14:00 Light lunch and networking**

**Note:** *We will move into another conference room 7.013 (7<sup>th</sup> Floor) of same building and have our lunch as well as convene the remainder of our afternoon session.*

### **Workshop 3:**

Hosted by Dr Stan Van Ginkel from HU.

Share the important educational innovations that Archimedes Institute has developed in co-creation with partners. During interactive workshops, you will have an opportunity to experience the world of Virtual Reality\*, Augmented Reality and Chatbots\*\* by senior researchers and lecturers of Archimedes.

\*On Virtual Reality we have a program in which students can practice their presentation skills. They experience a real VR audience, that responds to their presentation. Feedback can be given immediately or after the presentation.

\*\*Chatbots is a 'robot' tool that can handle 25.000 questions immediately, gives answers, shows videos and links. It is an AI approach that enriches itself each time it is used.

**14:00 to 14:45** Core Presentation/demonstration.

**14:45 to 15:15** Breakout session and/or fireside chat activities.

**15:15 to 15:30** Wrap-up and conclusions from workshop 3.

### **Final Workshop 15:30 to 16:00**

We anticipate our 3 workshops will generate strong interest and a need to know more on a number of topics. Therefore, this final session will provide an opportunity for participants to drill down further on a number of key topics/interests expressed during the day *or have one-on-one discussions with other participants if that is preferred group consensus.*

- Final break-out session and/or fireside chat. It could also be used to have individual one-on-one sessions if this is the preferred option.
- Wrap-up and conclusions from this session - Bijay Dhungana

**16:00 to 16:15:** Closing statement - Jaap van Voorst

**16:15 to 16:25:** Wrap-up, remarks and conclusions - Bijay Dhungana

**16:25** ----- Close of Annual Conference
